AWARDS 2021

Extraction 2.0

KÄÄPÄ Biotech utilizes Ultrasonic-Assisted Extraction to optimize the bioavailability of the compounds of interest (COI) found in mushrooms. The method offers higher yield of the COI's, reduced extraction time, lower temperature, less degradation of mushroom constituents and safer solvents (water, glycerin or alcohol) resulting in pure and potent mushroom extracts.

Nordic Chaga Organic Extract Powder

NLT 10% Beta-glucans

Bioactive compounds
 β -1,3/1,6-Glucans, triterpenes and polyphenols

Most revered benefits include antioxidant properties, regulation of gut microbiota, inhibition of oxidative DNA and RNA damage.

Nordic Reishi Organic Extract Powder

NLT 32% Beta-glucans

Bioactive compounds
 β -1,3/1,6-Glucans and triterpenes

Most revered benefits include significantly increased total sleep time and non-rapid eye movement (NREM) sleep.

100% mushroom fruiting bodies in our mushroom extracts.

Mushroom fruiting bodies contain beta-D-glucans which are one of the most important immunomodulatory compounds.

Nordic Lion's mane Organic Extract Powder

NLT 15% Beta-glucans

Bioactive compounds
 β -1,3/1,6-Glucans and diterpenes (i.e. hericenones)

Most revered benefits include supporting of brain health, neuroregenerative and neuroprotective properties.

Nordic Shiitake Organic Extract Powder

NLT 19% Beta-glucans

Bioactive compounds
 β -1,3/1,6-Glucans and L-ergothioneine

Most revered benefits include enhancement of immunity, reduction of inflammation and lowering of cholesterol levels.

Mushrooms grown on natural substrates have the precursors to produce important secondary metabolites such as triterpenoids.
