

Clinically Proven Postbiotics **BBR4401**[®]

Promote cholesterol health with **BBR4401**[®]

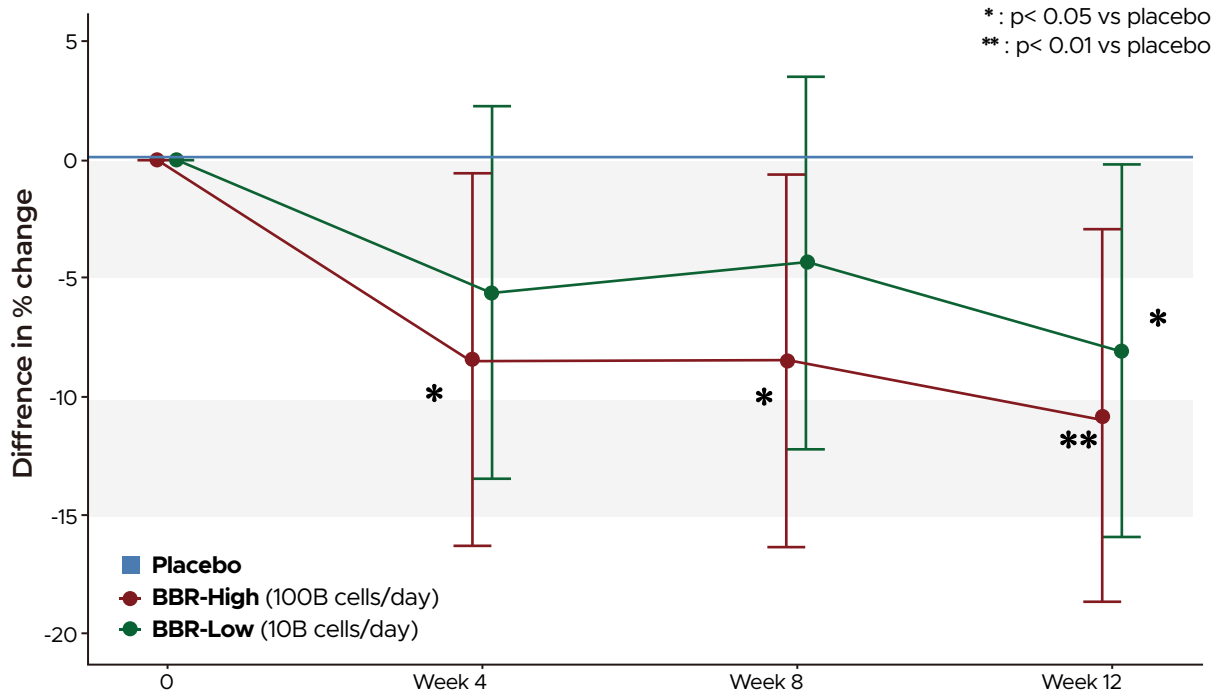

10B-100B cells/day (20mg-200mg)

Bifidobacterium breve IDCC 4401 Tyndallizate

Human Clinical Trial

Change in LDL-cholesterol compared to the Placebo group

Subjects

61 adults with LDL-cholesterol levels between 100 mg/dL and 150 mg/dL

Daily intake

B.brevis IDCC 4401 at a dose of 10 billion or 100 billion cells per day

Intake period

12 weeks

Source

BBR4401 human application test result report

- It is evident that consuming BBR4401 alone resulted in a decrease in LDL-cholesterol levels. Additionally, the group consuming **100B cells per day** showed a more significant change compared to the group consuming 10 billion cells per day.

Possible Application
